FREE COVID-19 TESTING FOR MIDDLETON RESIDENTS

MIDDLETON will offer FREE COVID-19 testing at the Middleton Transfer Station (70-98 Natsue Way) on Friday, December 11th from 2-6 p.m. and Tuesday, December 15th from 2-6 p.m. for MIDDLETON residents and Town employees. This will be a drive through testing site and will require a nasal swab to be collected.

Please **PRE-REGISTER**, it helps the line move faster.
Registration allows people to choose a time of arrival during the pre-registration process to spread out the crowd over the 4 hours of testing, however, this is not a standing and exact appointment time.   If there is a line of vehicles waiting for testing, please park in line, stay in your vehicle with a face covering on, and someone will approach your vehicle to take your registration information before being tested. **There will be NO walk-up testing**. All residents who would like to receive a test must be in a vehicle.

Cataldo Ambulance will administer the less invasive nasal swab **(PCR test)**, and results will be returned "approximately" 24-48 hours after testing. Please do not call the Health Department for results. Cataldo Ambulance will notify you of the results.

PLEASE EXPECT TO HAVE A WAIT TIME

Police and staff will be onsite to help the line move quickly and efficiently. Middleton Residents will be required to show proof of residency. Testing is free and insurance information is not needed.

Pre-registration: **http://cataldoambulance.com/covid-testing/**

If you miss this event, or if you are not a Middleton resident, visit https://www.mass.gov/covid-19-testing to find another testing site near you. Free testing for all Massachusetts residents is available at "Stop the Spread" locations.
