Jail/DYS March 2020 to 3/25/2021: 532

MIDDLETON PUBLIC HEALTH HEROES

The Middleton Health Department has accomplished one year of weekly covid-19 reports to the community. We will continue to provide covid-19 data and numbers. Starting this week, the Middleton Health Department each week will promote our Public Health Hero(es) Awards to individuals, groups, businesses, advocates, leaders, and beyond who have contributed greatly to public health prevention, promotion, and protection in Middleton during the pandemic!

MIDDLETON PUBLIC HEALTH HEROES

Our first week of Middleton Public Health Heroes award goes to our own town employees:

Traci Mello, RN/MSN, Public Health Nurse

Douglas LeColst, EMT, Captain Fire Dep't

We could go on forever about the work Traci Mello does for the Town of Middleton. Just a part-time nurse (serving 13 years) who works like a full time rockstar gives her everything to the residents of the community, especially during this pandemic, working around the clock on contract tracing, vaccinations, etc.

Douglas LeColst has worked at every Covid vaccination clinic in the town and as a life long resident has a great connection with all the seniors who have attended. He loves helping and goes beyond the call of duty of his regular job as Captain at the Fire Department (serving 33 years)

These two have led so many efforts to vaccinate individuals, including visiting homebound individuals, congregate care settings, at risk populations, etc.

Traci and Doug, We THANK YOU!
