

Town Administrator Update

April 9th, 2024

- The Planning Director Screening Committee will be meeting some time next week, with the goal of bringing a recommendation forward at your upcoming April 23rd meeting.
- A second public input session for the Memorial Hall Property with Studio Luz and MassDevelopment was held last night (4-8-24), with about 25 residents in attendance.
- We are in the process of reviewing ARPA funds, with some projects reaching completion under budget. A list of newly available funds will be presented at your next meeting.
- We have scheduled a meeting later this week with MassDOT, representatives from Villebridge Middleton, TEC Engineering and some board/committee members to discuss the proposed MassWorks infrastructure project and next steps.
- Our team has developed a list of condo associations and other civic groups to visit over the coming weeks in advance of Annual Town Meeting to answer questions about the override, MBTA Communities, and any other pertinent topics. A pre-Town Meeting will be held at 7pm on Tuesday, May 7th at the Flint Public Library.
- Options for the placement of the proposed MELD Generator will be reviewed by the building committee at their upcoming Wednesday, April 17th meeting.

Respectfully submitted,

Justin Sultzbach
Town Administrator
