

**Monday, November 10, 2025**

Good afternoon,

We are writing to follow up on our update regarding November SNAP benefits following USDA guidance to states received late Saturday evening.

Here's what you need to know today:

- SNAP households who missed payments last week, approximately 56% of SNAP households, received their full November SNAP and are able to use the SNAP balances on their EBT cards. Residents with balances on their cards should continue to utilize these to purchase food.
- The remaining SNAP households (44% of SNAP households) should get their full November SNAP during the week of November 10-14 on their normal date this week, barring further action by the Trump Administration.
- HIP continues to be available for households with balances on EBT cards (even \$0.01). For more information about HIP and where to find a retailer, please visit: [Massachusetts Healthy Incentives Program \(HIP\) Frequently Asked Questions | Mass.gov](#)
- As you may be aware, the Trump Administration has told states to stop issuing full benefits for November. We strongly disagree with their claim that we lacked authority to issue full benefits and are working closely with the Attorney General's Office. We took steps to issue those benefits pursuant to the lower court order and USDA's own November 7th guidance prior to any action by the Supreme Court.
- New SNAP applications will be processed, but payments for newly approved cases will not be sent until there is legal clarification.
- This continues to be a fluid situation and we will update you on any changes as we closely monitor court decisions and Trump Administration actions.

We will continue to inform clients and partners as the situation evolves. **A detailed Q&A can be found at [mass.gov/SNAPupdates](#).**

There is still an urgent need for food assistance for Massachusetts residents following this crisis that destabilized households who rely on SNAP. Please continue to share food assistance resources with those in need and encourage who is able to do the same.

If constituents need immediate help, please direct them to Project Bread's FoodSource Hotline at 800-645-8333. Constituents can call or text the Hotline to receive information about food resources in their area or talk with a Project Bread counselor. The Hotline is available Monday through Friday, 8am to 7pm, and Saturday, 10am to 2pm.

Thank you.
